

The Technical Criteria and Evaluation Form (Annex B-1)

Pricing itself must not be listed in this section. Each question must be answered thoroughly as described in order to receive a passing score. A failure on any question will render the bidder as not technically compliant.

1. A description / lay-out of the provider's internal work structure(s) and main processes and procedures applied to provide capabilities for this contract;

Grading criteria-

PASS- Response displays adequate compliance with and understanding of the requirement.

FAIL- Response does NOT display adequate compliance with and understanding of the requirement.

Answer:

2. An outline plan for the production, staffing and delivery of Geo products. This should include a description of how the process will unfold when providing Geo support in the reality of a challenging environment. This description should include the following:

- 2.1. An outline production plan;
- 2.2. Expected staffing levels and locations;
- 2.3. External work sites and facilities;
- 2.4. Expected Geo products;
- 2.5. Process for coping with changing requirements;
- 2.6. Process for developing new products.

Grading criteria-

PASS- Response displays adequate compliance with and understanding of the requirement.

FAIL- Response does NOT display adequate compliance with and understanding of the requirement.

Answer:

3. Provide a description of the specialist capability, which includes the level of availability and expected notice period. This description should include how these capabilities will be delivered;

Grading criteria-

PASS- Response displays adequate compliance with and understanding of the requirement.

FAIL- Response does NOT display adequate compliance with and understanding of the requirement

Answer:

4. An estimate of required work-units per Geospatial Deliverable Outputs (GDO) to provide capabilities;

Grading criteria-

PASS- Response displays adequate compliance with and understanding of the requirement.

FAIL- Response does NOT display adequate compliance with and understanding of the requirement

Answer:

5. An identification of relevant cost factors (not prices) not explicitly mentioned in Part III Statement of Work.

Grading criteria-

PASS- Response displays adequate compliance with and understanding of the requirement.

FAIL- Response does NOT display adequate compliance with and understanding of the requirement

Answer:

6. Past Performance - Provide evidence of at least one experience from a previous project/engagement, which demonstrates the ability to design, develop, and deliver innovative solutions (All elements of the process must be described in order to pass);

Grading criteria-

PASS- Response displays an ability to design, develop, and deliver innovative solutions.

FAIL- Response does NOT display an ability to design, develop, and deliver innovative solutions.

Answer:

Please Respond to this Question on the Question 6 Past Performance Form

7. Past Performance - Provide evidence of at least one experience in developing and delivering geospatial web services, outlining how the bidder operated in a constrained environment such as a NATO, National, or Commercial equivalent system;

Grading criteria-

PASS- Response displays adequate experience in developing and delivering geospatial web services and outlined how the bidder operated in a NATO, National equivalent or commercial environment.

FAIL- Response does NOT display adequate experience in developing and delivering geospatial web services and/or did not outline how the bidder operated in a NATO, National, or commercial equivalent system.

Answer:

Please Respond to this Question on the Question 7 Past Performance Form
