## **Clarification submitted Week 31**

It has come to JWC's attention that an error was made relating to the Questions and Answers during Week 28.

The following question was asked with the following answer:

1. IFIB Part 2 Section B.8 – would NATO allow 2 travel days consider return flights?

[JWC has decided to compensate for 1 travel day in and 1 travel day out.](#)

---

This answer was incorrect. JWC is sticking with its terms as written in the solicitation. The payment is still just 1 Work Unit for payment per event at 100%.

On our current contracts, we pay 50% of a Work Unit for 2 travel days, this fact was confused when answering this question and we apologize.

Contract IFIB-ACT-JWC-19-08 STOC will only allow for 1 travel day to be paid at 100% to the contractor. This is in line with the bidding process as well and results with no change to the current solicitation's terms and conditions, or bidding form.
